TOUR ITINERARY

DAY 1 - ARRIVE IN VALLE D'ITRIA

Welcome to the fairytale countryside of Puglia's Valle d'Itria! This area of Puglia starts from Putignano in the north to Ostuni in the south, and encompasses vineyards, never-ending olive groves, and of course the iconic coned roofs of Trulli, traditional stone huts that locals once lived in.

We meet in the region's vibrant capital Bari and whisk you away to a 'locals only' countryside restaurant nestled between the olive groves. Prepare yourselves for an unforgettable long lunch Pugliese style! Dish upon glorious dish will arrive as we sit back and get to know the group over crisp white Verdecchia wine. Explore the charming property in between courses - there are beautiful flowers in bloom all through the garden and locals in the know enjoying quality time together.

Refortified and inspired after our first taste of Pugliese cuisine, we travel onwards to our gorgeous countryside masseria. Here you have time to unpack and relax. This luxurious country farm house hotel will be our home for the next few days and the perfect base to explore the wonders of land and sea close by.

Once you are settled in, we enjoy our first evening relaxing with a spritz or glass of local wine and our welcome aperitivo as you soak in the beautiful location.

- MEALS: Lunch with wine and Evening welcome aperitivo
- ACCOMMODATION: Luxury 4 Star masseria country style hotel in the Valle d'Itria

DAY 2 -POLIGNANO AND ALBEROBELLO

This morning we are off to explore one of the most picturesque towns in all of Puglia – Polignano a Mare. Renowned for its characteristic beach nestled between the cliffs, we will have plenty of time for photos, exploring and watching daring locals leap from the cliffs into the sea. Our guide shares stories as we stroll through this pretty town.

Don't leave town without a fortifying glass of 'caffè speciale' either - it's a hyper local drink from Polignano itself.

With the sea breeze in our hair and bellies beginning to rumble, we visit a local caseificio (dairy). Here we taste the traditional cheeses of Puglia (including creamy burrata, cacioavallo, and stracchino). Relax on the outdoor terrace as we enjoy a delicious lunch together.

This evening, we hit the road to visit one of the borghi più belli d'Italia (most beautiful villages of Italy) – Alberobello. This town is most famed for its trulli houses and was listed by UNESCO as a World Heritage Site in 1996.

We meet our guide and enjoy a guided walking tour through this fairytale town that enchants and delights all who go there. We follow our noses down the little lanes and go underground into one of the best restaurants in town where we have the chance to watch the team of chefs in the kitchen as they prepare our traditional feast.

In the evening, we head off for a seaside adventure in pretty Monopoli, where colorful fishing boats bob up and down in the turquoise Adriatic waters. Here we enjoy a short guided tour before you have time to wander on your own, popping into one of the many beautiful boutiques in town with gelato in hand.

We meet at a gorgeous local spot with sea views for a fun apericena. Of course, it's not complete without a cocktail and glass of wine or beer. Salute.

DAY 4 - LECCE, WINE TASTING AND OSTUNI

Sometimes called – the ‘Florence of the South’, today we visit the truly beautiful Lecce. This baroque town is famous for its many churches, but perhaps above all else its stunning golden sandstone buildings. We meet our local guide for a walk through the historical centre of Lecce which includes a stop at the Roman amphitheater and hidden sights down the city’s many picturesque laneways.

Afterwards, enjoy some free time wandering the Baroque streets and shopping in the many excellent artisan workshops. Don’t miss a ‘rustico’ and *caffè leccese*. This local pastry is filled with piping hot *passata* (tomato sauce) and oozing mozzarella, and is even more delicious than it sounds. The famed *caffè leccese* – a cold coffee drink with almond flavouring that is very refreshing on a warm day is sure to be a hit too.

This afternoon, we head inland towards a beautiful winery in the Salento area. This family-run winery produce wines from ancient native vines including Verdeca, Susumaniello and Primitivo.

Pugliese ceramics are famous throughout Italy and we're about to find out why. This morning, we visit a 'secret garden' - our lips are sealed as to what makes this just so special...Afterwards, we continue onto our guide's workshop and watch artisans at work before having some time to wander through the array of fantastic ceramic shops in Grottaglie.

Stop for a caffè where you will drink out of quite possibly the country's most beautiful tazze (cups) and observe even the local dogs drinking out of beautifully crafted water bowls. There is plenty of time for shopping too.

After a truly off-the-beaten-track experience, we sit down to a wonderful lunch together paired with local wine as we reflect upon our secret garden (and more) experience.

In the afternoon, we return to our masseria where you have time to freshen up, go for a swim, or relax. We have a very fun local cultural experience in the afternoon at our masseria that involves music and dance!

DAY 6 - THE HEART OF BARI AND A CAVE HOTEL

We say farewell to our beautiful masseria today, and travel outside of Puglia to the region of Basilicata. On our way, we make a stop to get to know the capital of Puglia a little better.

A lively and exhilarating port city, Bari has fascinating sights, sounds and food waiting for us to discover. We spend our time in Bari enjoying a fantastic historic walking tour with a focus on local food traditions including a wander around the fish market, and watching local women roll orecchiette (local pasta) in the street.

Barese focaccia is made with semolina flour and potato and is studded with tomatoes and olives. It's delicious and the perfect snack to munch on as we stroll along the beautiful lungomare (promenade) soaking up the atmosphere.

This afternoon we are off to the truly unique city of Matera. Famous for its sassi or cave dwellings, built into the cliff face, many date back to the Palaeolithic era, meaning the city is one of the oldest inhabited places in the world.

We check in at our luxury cave hotel for a truly once in a lifetime stay. This afternoon, you have free time to explore or indulge in our unique dwelling for the night. After a little relax time, we meet our local guide in the city of the sassi for a guided walking tour where we hear about the city's incredible history and stories over many hundreds of years of inhabitation before our evening 'rooftop' aperitivo with an incredible view.
